NOVABELL ADVANCED SURFACES

**DEEP TECH TECHNOLOGY**  
DETAILS DEFINED  
WITH AMAZING  
CLARITY.

The amazing definition of the three-dimensional details is achieved with the exclusive new "Deep Tech" application, **a digital technology that creates low-reliefs around the edges of flowers and leaves**, stems and ribs, further highlighted by **glossy decorative inclusions**. The delicate polishing accentuates the depth and glow of the colours.

La straordinaria definizione dei dettagli tridimensionali è determinata dalla nuova ed esclusiva applicazione "Deep Tech", una **tecnologia digitale che consente di creare bassorilievi in corrispondenza dei bordi di foglie e fiori**, steli e nervature ulteriormente evidenziati da **inclusioni decorative lucide**. La levigatura morbida accentua la luminosità e l'intensità dei colori.

L'extraordinaire définition des détails tridimensionnels est le fruit de la nouvelle application exclusive « Deep Tech » : cette **technologie numérique permet de créer bas-reliefs sur les bords des feuilles, des fleurs**, des tiges et des nervures, que viennent encore souligner des **inclusions décoratives brillantes**. Le léger polissage accentue la luminosité et l'intensité des couleurs.

Die hochauflösende Wiedergabe der dreidimensionalen Details wird durch die neue, digitale Technologie „DEEP TECH“ erzielt. **Sie ermöglicht die Schaffung von Flachreliefs an den Rändern von Blättern und Blüten**, Stängeln und Adern, die durch **glänzende dekorative Einschlüsse** besonders zur Geltung kommen. Die weiche Politur verstärkt die Helligkeit und Intensität der Farben.
